CREATIVE DIRECTOR AT DESI MOCHI

FOOTWARE FASHION START-UP DESI MOCHI

Since childhood, my perception of the world has been more or less inclined towards the aesthetic essence of the things around me. The discrete color schemes and patterns used in the designs used to fascinate me a lot. working my way up from scribbling doodles in primary school to practicing advance drawing techniques in architecture school .the artistic world has always inspired me, fabricating a career in a creative field was all that I craved for.
